## A MESSAGE FROM YOUR PRESIDENT

Fellow Members;

A new club year is upon us and I am sure it can be a great one if everyone contributes to it. The Split Rail Festival, snowmobile rallies, car and truck rallies, etc., are a good way to have fun, get some fresh air, and let people know what amateur radio is all about.

Our usual meeting room in the CIAG building is no longer available, but Fred, VE3KPK, has offered his business QTH for the September meeting and Flea market. This year the executive hopes to condense the business section of the meeting and leave more time for the program. This will be the result of having a meeting of the executive prior to the main meeting. If something bugs you, or you have an idea for a program, or you want to have something changed let you executive know! it's the only way to let them know your wishes.

Classes should be starting in the first part of October in Owen Sound as well as in other places. If you have some spare time come out to the classes! it means a lot to the students to meet other hams and ask them questions.

73's

Don VE3IDS

p.s. Be sure to bring all your spare bits and pieces to the flea market. After all, if no one has a use for them, AEO will likely take them off your hands. hi!hi!

### FREE-A RADIO SPECTRUM CHART

A full -color chart, showing the current radio frequency spectrum allocations for Canada, is now available. The bilingual chart gives a brief description of spectrum allocations from 3 kilohertz to 300Gigahertz on color-coded bands.

It should be of particular interest to amateurs, students, engineers and researchers. To order, simply write to the address below marking the words "SPECTRUM CHART" on the outside of the envelope. There is no charge but quantities are limited to one per addressee. Recognized clubs, associations and groups may order larger quantities by making arrangements with Paul Villeneuve, Distribution Officer, at the address below. GOVERNMENT of CANADA, DEPT. of COMMUNICATIONS, INFORMATION SERVICES, 300 Slater Street, OTTAWA, K1A 0G8 (613)995-8185

Late News -The Bruce Amateur Radio Club of Kincardine will be the guests of the Georgian Bay Amateur Radio Club at the September meeting and flea market. We are looking forward to this event and hope that we have a large attendance of both guests and members.
